### Extinguishing Media

Dry chemical, carbon dioxide, water spray or regular foam.

### Protection of Firefighters

In case of fire, wear a full-face positive-pressure self-contained breathing apparatus and protective suit. Move container from fire area if you can do it without risk. Apply cooling water to sides of containers that are exposed to flames until well after fire is out. Use flooding amounts of water as a fog, solid streams may be ineffective. Avoid breathing vapors; keep upwind.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

### Personal Precautions:

Wear skin, eye and respiratory protection as recommended in Section 8. Stop or reduce any leaks if it is safe to do so. Spills present a slipping hazard. Keep unnecessary personnel away. Ventilate spill area if possible. Make sure area is slip-free before re-opening to traffic.

### Environmental Precautions:

Small or household quantities may be disposed in sewer or other liquid waste system. For larger quantities check with your local water treatment plant.

### Methods for Containment and Clean-Up:

SMALL SPILLS: Contain and absorb with absorbent material and place into containers for later disposal. Wash site of spillage thoroughly with water. LARGE SPILLS: Dike far ahead of spill to prevent further movement. Recover by pumping or by using a suitable absorbent material and place into containers for later disposal. Dispose in suitable waste container.

## SECTION 7: HANDLING AND STORAGE

**Handling:** Do not get in eyes. Do not take internally. Use with adequate ventilation. Avoid generating aerosols and mists.

**Storage:** Store in original containers in a cool dry area. Store away from incompatible substances and nitrosating agents. Storage areas for large quantities (warehouse) should be well ventilated. Keep the containers tightly closed when not in use.
